POLICY DOCUMENT GREEN CAMPUS INITIATIVES

Our college deems it essential in implementing green concepts on the campus. JBR Architecture College believes in education combined with environmentally friendly practices to promote sustainable development. Though implementing green initiatives are challenging and require determination and a long-term commitment, undertaken by the college.

Water resources: Our institute constantly practices and implements rainwater recycling and harvests rain water to resolve and manage water scarcity problems that may arise in the future. Our maintenance staff regularly inspects tap leakage and attends to repair needs immediately to avoid loss of potable water.

Energy consumption: JBR Architecture College believes in reduced the waste in energy consumption we believe in the slogan 'energy saved is energy generated'. The following instructions are strictly practiced on campus.

- Turn of the monitor when you leave your table.
- Turn off unnecessary lights and use daylight instead.
- Use LED or compact florescent bulbs as much as possible.
- Switch off lights, fans in conference room, class rooms, Auditorium when not in use.

Renewable energy: Our institute trusts in promoting solar energy. In addition to this we believe in encouraging and promoting the adaptation of solar power equipment among stakeholders. In this regard, our college conducts various awareness programs.

Conserve natural resources: JBR Architecture College takes all the requisite measures to protect them. Along with the management, our institute follows best practices towards the establishment and maintenance of green campus.

Restricted entry of vehicles: All the vehicles of the college staff/faculty members are expected to possess emission certification before entering the college campus. The college encourages the employees and students to use public transport, bicycles, etc. to limit the emissions. The institute has a fleet of buses to transport many students from different places with in the city. The initiative helps in reducing pollution and consumption of petrol.

Pedestrian-friendly path ways: JBR Architecture College adheres to the pedestrian-friendly walkways in the campus. Pedestrian-friendly path way is properly marked with a suitable logo/sign.

Promoting use of bicycles/electric vehicles: JBR Architecture College encourages its students to use bicycles especially those who stay close to the college. Some students regularly come on bicycles. This initiative helps in promoting fuel saving attitude among future users.

Ban on use of plastic: JBR Architecture College is committed to make the campus a plastic-free zone. Therefore, there is a complete ban on single-use plastics in class rooms, labs, canteens in the institution premises and hostels. Awareness activities are conducted to promote reduce use of plastic inside and outside the campus. NSS conducts education program in this regard.

Landscaping with tree and plants: As per green practices, our campus moves in direction of a green institution by planting more trees within and outside the campus and creating awareness with stakeholders by spreading the concept of eco-friendly culture to the nearby community and wherever possible.

Waste management: JBR Architecture College believes in reducing or minimizing the waste. The following initiatives are practiced:

- Keep a stack of paper that has been printed on one side and use it for day to day rough paper work.
- Use more read out material in soft form. Reduce the hard readout material. Use more of e-mail for officially communicating the information needed, online reading etc.
- Minimize the use of fertilizers and pesticides in college grounds, opting to the use of compost produced onsite whenever possible.
- Ensure that all cleaning products used by the college staff have a negligible harmful impact on environment.
- Use two types of bins separately for biodegradable and non-biodegradable wastes in the college campus as well as in hostels.
- Reusing the class room furniture by altering them, thereby reducing the metal waste

POLICY DOCUMENT ON E-WASTE MANAGEMENT

1. Introduction:

JBR Architecture College is committed to environmental sustainability and recognizes the importance of responsible electronic waste (e-waste) management. This policy outlines the guidelines and procedures to be followed by students, faculty, staff, and other stakeholders in the responsible disposal of electronic devices.

2. Objectives:

The primary objectives of the E-Waste Management Policy at JBR Architecture College are:

- To minimize the environmental impact of electronic waste generated within the college.
- To promote the reuse, recycling, and proper disposal of electronic devices.
- To raise awareness among the college community about the significance of e-waste management.

3. Collection and Disposal:

- Designate e-waste collection points across the campus for the convenient disposal of electronic devices.
- Organize regular e-waste collection events to encourage active participation from the college community.
- Collaborate with certified e-waste recycling facilities for the proper disposal and recycling of collected electronic devices.

4. Data Security:

- Establish protocols for the secure destruction of data on electronic devices before disposal.
- Provide resources or services to help students and staff securely wipe data from their devices.

5. Extended Producer Responsibility (EPR):

- Encourage electronics manufacturers to adopt extended producer responsibility and take accountability for the end-of-life management of their products.

6. Awareness and Education:

- Conduct awareness campaigns to educate the college community about the importance of e-waste management.
- Provide information on where and how to dispose of electronic devices responsibly.

7. Reuse and Refurbishment:

- Explore options for refurbishing and reusing electronic devices that are still functional.
- Establish a system for redistributing refurbished devices to students or donating them to charitable organizations.

8. Procurement Policies:

- Include e-waste considerations in the college's procurement policies, promoting the purchase of electronics from manufacturers with responsible end-of-life practices.

9. Student Involvement:

- Engage students through environmental clubs, sustainability committees, or student government to promote e-waste awareness and initiatives.
- Encourage student-led projects related to e-waste management and sustainability.

10. Monitoring and Reporting:

- Establish a system to monitor the effectiveness of e-waste management initiatives within the college.
- Regularly report on the amount of e-waste collected, recycled, and any other relevant metrics.

11. Integration with Sustainability Goals:

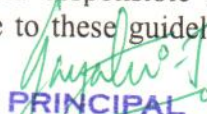

- Align the e-waste management policy with JBR Architecture College's overall sustainability goals and initiatives.
- Consider certification programs or recognition for the college's excellence in e-waste management practices.

12. Faculty and Staff Training:

- Provide training sessions for faculty and staff on the importance of e-waste management and the proper procedures for disposal.

This E-Waste Management Policy is intended to foster a culture of responsibility and awareness within JBR Architecture College, contributing to environmental sustainability and responsible resource management. All members of the college community are expected to adhere to these guidelines and actively participate in the implementation of this policy.
